

From June 2004 to January 2008, Allegheny Graphics (AG) has worked on over 100 web-based projects and established a client base that spans 13 states and 2 countries. AG's rapid growth has put AG on a continuous talent search to find individuals that uphold the same high standards as it does. Since the company is still developing and expanding, applicants are in a unique position to come in on a ground level with high potential for advancement.
